4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village goal is to implement and maintain access to information regarding current events and information for the residents. The Village has continued to be an active participant in the Rockland County Stormwater Consortium affiliated with Cornell Cooperative Extension. CCE has assisted in distributing and presenting materials and offering educational opportunities through the county in numerous events and programs.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Keep Rockland Beautiful continues to provide outreach and education services in which the residents have an opportunity to actively participate. Cornell Cooperative has taken an active role in disseminating information. During the COVID pandemic, public involvement was limited at the Village Office so direct information was not provided to the general public like previous years. We intend to promote more in the 2022 year along with our introduction of new Village Master Plan.

C. How many times was this observation measured or evaluated in this reporting period?

		1	2
--	--	---	---

*(ex.: samples/participants/events)***D. Has your MS4 made progress toward this Measurable Goal during this reporting period?**
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village will continue to explore alternative means of reaching out to the residents to inform them of education information and opportunities. The program offered by the Consortium and Cornell Cooperative will continue to be offered to the public as well as the Village staff. Classes are available to local contractors. The radio show remains active.

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.
