Tax Lot 13/50.05-1-11.2 (formerly a portion of 15./5/A, 15./5/B & 15./21/A1A)

Dear Ms. Weinraub:

Our office has received and reviewed a conceptual site plan that was last revised on February 15, 2024, which Atzl, Nasher & Zigler prepared for the above referenced project. We thank you for the opportunity to comment on this application. Our comments are as follows:

1. The sanitary sewers from this project would connect to the District's sewer system.
 - a. Upon review of this information, the District has determined that an impact fee is required, in accordance with Sections 502A and 1317 of the Rockland County *Sewer Use Law* as last amended in 2010.
 - b. Approval of this special permit application for a proposed 55-unit active adult residential community with an outdoor pool and an indoor pool on a 404,608 square foot lot in the 1R-40 District will result in forty-nine (49) additional sewer units. **Therefore, the applicant must submit a check in the amount of ninety thousand six hundred fifty dollars (\$90,650.00) payable to Rockland County Sewer District No. 1 within thirty (30) days of approval.**
 - c. If the use or occupancy of the property exceeds fifty-seven (57) units (e.g., with additional dwelling units, if the community building has a kitchen, or if the community building or pools are available to non-residents), the District will require further review and the owner will have to pay an additional impact fee.
 - d. Payment of the impact fee must be made to the District before the structures are connected to the sewerage system.
 - e. We request that the Board notify the District upon approval of the project.
2. The District requires that the engineer perform a flow and capacity analysis of the sewer system before the District approves the connection to the sewerage system. If the flow from this project requires improvements to the District's infrastructure, the applicant may be

required to pay for an equivalent value of sewer improvements that is greater than the minimum impact fee stipulated above.

3. Rockland County Sewer District No. 1's "Commercial/Non-residential Wastewater Questionnaire" and the County Planning Information Certification must be submitted to and approved by this office for the community building before any sewage is discharged into the District's sewerage system. **The property owner must sign the wastewater questionnaire.**
4. Details for sanitary sewer construction must comply with the District's construction standards and should be shown on the plans.
5. Rockland County Sewer District No. 1 requires sanitary sewer construction to conform to District standards. This includes but is not limited to relative air, vacuum and deflection testing of mainline sewer and manhole construction. The District must receive and approve certification of test results from a licensed professional engineer before approving the sewers on this project.
6. In order to reduce infiltration into the system, the District requires that the precast and doghouse sanitary manhole construction be in accordance with the District's standards. The District's standard details require the joints to have butyl rubber seals with *mortar in and out, and then to be coated with Infi-shield® EPDM rubber seal wrap or approved equal.*
7. We request that submission to Rockland County Sewer District No. 1 of an as-built drawing of the proposed sanitary sewer extension be made a condition of granting certificates of occupancy.
8. Details for sanitary sewer connections are subject to approval by the Town of Ramapo.

Please inform us of all developments in this project. If you have any questions, please contact this office at 845-365-6111.

Very truly yours,

Joseph LaFiandra
Engineer II

WASTEWATER DISCHARGE QUESTIONNAIRE FOR RESTAURANTS/CATERERS/BAKERIES/FOOD
MANUFACTURERS/BARS/BANQUET HALLS/FOOD PACKAGERS/FOOD DISPENSERS FAST FOOD
TAKE OUTS/CAFETERIAS AND ANYONE DISPENSING OR PREPARING FOOD ON LOCATION

Dear Sewer System User:

Federal and State regulations impose restrictions on the quality of wastewater being discharged into the Hudson River by Rockland County Sewer District No. 1.

In order to protect the environment and ensure that the receiving waters are protected from pollutants passing through the treatment facilities, the District administers a Pretreatment Program. This program is intended to protect the District's wastewater treatment facilities from damage and interference with its proper operation.

The Rockland County Health Department, municipal building, planning and environmental control departments may require comments from this office prior to action on your application. In accordance with the Pretreatment Program, you must complete the attached questionnaire (Form-CWOI) and return it to the Sewer District at the above address, along with the following:

1. A site plan showing the existing and/or proposed sewer line(s) in the street. The plan should also show the existing sewer connection or details for the proposed connection to the line in the street. The sewer elevations should also be clearly shown.
2. County Planning Information Certification form
3. A plumbing layout of the proposed facility, if available.
4. Details of any existing or proposed grease traps.
5. The Wastewater Questionnaire must be signed by a principle of the Corporation.

In all written correspondence please refer to the Tax Map Block and Lot number of the property, and the name and address of the project.

Your concern for the environment is greatly appreciated.

Should you have any questions or need additional information please call this office.

Very truly yours,

Joan Roth
Compliance Administrator
