RE: 619 Union Rd. (50.05-1-18)

Site Plan by Josip Medic, P.E., File #24175 dated 7/15/2024, was reviewed for Fire Apparatus access and Fire Ground Operations by Manny A. Carmona, Hillcrest Fire Company #1. The following are recommendations from the Hillcrest Fire Company #1:

Proposed Project: Two lots subdivision with a detached two-family dwelling on each lot.

Comments & Recommendations:

1. Recommend an area be provided for the turning around of the fire apparatus access to rear two-family dwelling.
2. Recommend proper marking and signage be installed along the full length of the driveway to prohibit the obstruction thereof by the parking of vehicles.
3. Recommend building address identification for the rear building be located by the driveway entrance and clearly identifying the rear building. Numbers should be 6-inches in height, half-inch in width, contrast color to its background, reflective and of durable material.

Thank you for the opportunity to review and comment on this project.

Safely,

PETER GESSNER
Chief
