Amanda,

We are respectfully requesting an adjournment from tonight's Planning Board agenda.

Due to the enactment of new Wetlands guidelines by NYSDEC, the stream on our site is considered to be under NYSDEC jurisdiction.

We don't believe NYSDEC will have an issue with our project.

To receive the required Negative Declaration regarding SEQR, we will need correspondence from the NYSDEC confirming this.

Please adjourn this project to the February 4, 2025 Planning Board agenda.

Thank you,

John
