Dear Amanda,

This matter is scheduled to be continued at tonight's Planning Board meeting.

The applicant will be proceeding back to the Village Board with regard to the special permit application which is necessary before the Planning Board can take final action on the site plan application.

Therefore, we would request that application be adjourned until the June agenda. Hopefully we will have further information for the Planning Board at that time based on further discussions and a meeting with the Village Board.

Thank you for your consideration.
